

CARNIVAL Challenge Wheel

Print off your game wheel on the following page and follow these directions to assemble it before spinning the wheel of challenges!

Materials Needed:

- Cardboard
- Printed wheel (can also draw it out and fill in the words manually if you don't have access to a printer)
- Something to cut with (scissors, knife, etc.)
- Duct tape or hot glue
- White glue or glue stick
- Paper fastener
- Sharpie

Step 1

Once you have your wheel printed out, use it to draw out a circle on some cardboard of equal or slightly larger size, then cut it out. Glue the printed wheel to the cardboard wheel and poke a small hole through the middle.

Step 2

Cut out 2 more pieces of cardboard, 1 to be the foot of your wheel and 1 to be the stand. You can also cut out one section of a box and use the flap as the foot. Hot glue or duct tape these pieces together. Add an extra support at the back as shown.

Step 3

Attach the wheel to the arm with the paper fastener leaving a couple inches of space above the wheel. Draw an arrow on this spot to be the pointer.

Step 4

Decorate your wheel, spin, and complete the challenges on your own or with your family!
