

Catapult Construction

Make your own catapult using popsicle sticks and rubber bands!

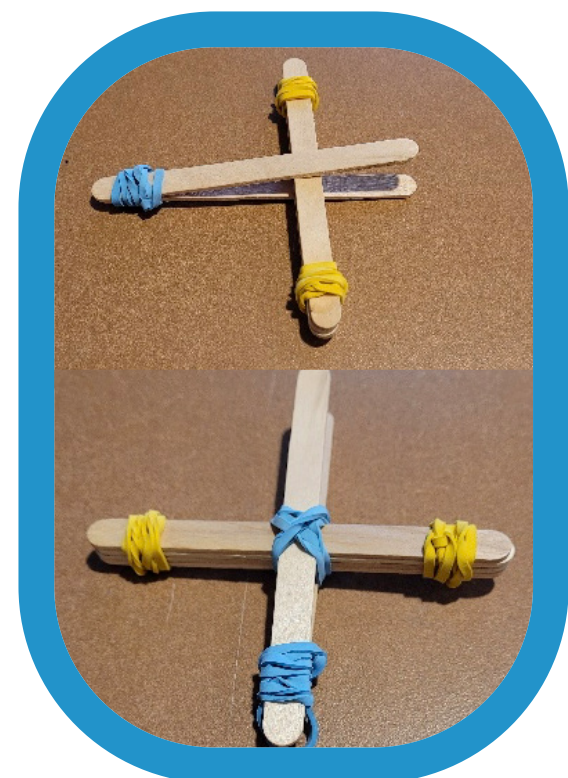

Step 1: Stack four popsicle sticks together and tie them with rubber bands

Step 2: Stack two popsicle sticks together and tie them together with a rubber band on one end, leaving the other end open

Step 3: Slide the bigger stack into the open end of the two sticks and then tie them together in the center using a rubber band

Step 4: Slide a spoon into the rubber band that connects the two stacks, and then tie the spoon to the top of the stack of two
