

# THANK YOU ASSOCIATION OF PROFESSIONAL ENGINEERS AND GEOSCIENTISTS OF SASKATCHEWAN

Proud Sponsor of Nutrien Wonderhub

The Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS) has been a proud sponsor and supporter of Nutrien Wonderhub since 2017. APEGS licenses and regulates approximately 15,000 engineering and geoscience professionals in the public interest in accordance with The Engineering and Geoscience Professions Act.

In our community, APEGS ensures that we can be confident in our engineers and geoscientists by ensuring everything is done to the highest possible education and safety standards. They help inspire the minds of tomorrow by supporting initiatives that focus on Science, Technology, Engineering, Art and Math (STEAM) with program-oriented donations.

APEGS is a proud supporter of Wonderhub with a capital campaign donation of over \$125,000 and a matching gift of an additional \$100,000 as a part of their SEED Engineering Project where members made donations that were matched by APEGS. Their capital campaign donation was one of many supporters that helped build our Discovery Mine Exhibit. As a part of their commitment to strengthening communities, APEGS also initiated an operational gift of \$25,000/year in 2016 and is committed to continuing that support through 2025. They are always looking for ways to collaborate and partner with organizations that promote and create STEAM educational programs. Their annual operational funding assists Wonderhub's vision of expanding possibilities for children; building a brighter future for our community. With the support of APEGS, Wonderhub has been able to showcase science and engineering in action so children can explore how things work and feed a curiosity about their environment and the world around them. Since opening our doors in 2019, APEGS has helped us welcome over 260,000 guests to Wonderhub with their generous support

“Wonderhub is great at incorporating Art into STEAM”, says APEGS president John Desjarlais, “Programs at Wonderhub take the dry interpretations from STEAM and make them fun. The programs take age appropriate activities and inspire the future generations of Engineers and Geoscientists.”

When the donation request for Wonderhub's capital campaign came to APEGS it was a unanimous yes. Supporting Wonderhub was a natural fit for APEGS as they wanted to share their love of their exciting careers and ensure Saskatchewan would have a steady supply of engineers and geoscientists.

“Being one of its kind, Wonderhub was an important investment for the community of Saskatchewan. It filled a gap in our community that was being missed.”

Thank you APEGS for helping Wonderhub inspire the minds of tomorrow while fostering creativity, curiosity and a lifelong love of learning.
